Thomas Penz

JUNGER WILDER 2022

DR. BECHER is
cooperation partner of the
Creative Cooking Award

JUNGE WILDE
rolling pin.

Foto: Rolling Pin/Julia Losbichler

Competence from experience since 1896

JUNGE WILDE

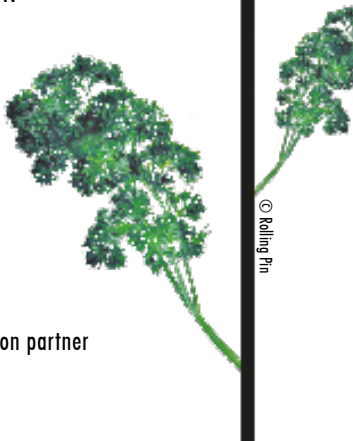

rolling pin.

Junge Wilde- the trendiest cooking competition in europe

In 2005, Rolling Pin founder Jürgen Pichler wanted a contemporary cooking competition for young, committed chefs. Together with his friend Stefan Marquard, he founded the JUNGEN WILDEN - which has since become the largest and most desirable creative chef award in Europe, as well as the career opener par excellence.

DR. BECHER is an official cooperation partner

Thomas Penz - junger Wilder 2022

He was born with a love for gastronomy. His family runs, among other things, "The Penz" Hotel in Innsbruck. Instead of becoming a carpenter or an architect, which also appealed to him, he embarked on a career as a chef and did so with great success even at a young age.

Thomas won the Culinary World Cup Luxembourg 2018. Impressive stations so far were Hangar 7, Steirereck, Vendome, Noma, Kadeau - today he is Sous Chef at the two-star restaurant Ocean by Hans Neuner in Portugal. A temporary highlight of his career is his title win at the Rolling Pin Convention 2022, for which he competed against thousands of applicants and 5 opponents. We will certainly hear a lot more from this exceptional talent in the future.

**THE RIGHT PRODUCT
FOR EVERY AREA
AND EVERY PROBLEM
SAFE AND EFFICIENT**

Founded in Hanover as a family-run
wax melting company in
1896, the company relocated to
Seelze in 1952.

For decades, Dr. Becher GmbH was
part of a group affiliation but has
now returned to being a family-run
business once more.

Nowadays, with a product portfolio
of more than 300 products for
cleaning, disinfecting and care in
the gastronomy and food processing
industries, Dr. Becher is the brand
name and the market leader in the
Cash & Carry trade.

All products have been field-proven
and developed in the company's
own research laboratory.

Our Products

A suitable product for every area and every problem - safe and efficient.

Our wide range of special products for cleaning and care saves time and money.

These products are formulated efficiently to make them economical to use and to protect the environment.

Focus

Private Label

We also manufacture both tablets and liquid products for other well-known brands. Our Private Label Customers appreciate not only our years of experience but also our high quality standards in this topic.

Puravia Training Academy

Professionals learn from professionals:

This is the motto under which workshops on all gastronomy-related topics are held in our Puravia Training Academy in Hanover-Ahlem.

In our professionally equipped kitchen and seminar rooms, renowned instructors impart their skills in contemporary preparation methods such as sous vide, handling new kitchen technology or special forms of nutrition - from chef to chef.

Research & Development

All products have been developed and tested in our in-house laboratories.

Our experienced laboratory team also ensures continuous quality controls and in-process controls. Close cooperation between all departments enables us to react promptly to market changes and customer requirements.

Areas

Personal hygiene

The human being is the most significant risk factor when handling food. Up to 6000 germs can be found on one square centimetre of the palm even if hands are washed regularly. Dr. Becher offers products for safe hand hygiene. Our soaps, disinfectants or decontamination products for washing, along with suitable wall dispensers, ensure basic hygiene.

HACCP

HACCP training courses, staff training and a hygiene concept from Dr. Becher that is specifically designed for the gastronomy industry ensure that the food business operator avoids risks and is well-prepared. Our training courses and the Puravia Hygiene Concept are recommended by the Bundesverband der Lebensmittelkontrolleure (German Federal Association of Food Inspectors).

Sustainability

We are very aware of the responsibility that we, as a medium-sized chemical company, bear towards customers, employees and, last but not least, towards our environment. We therefore accord high priority to the issue of sustainability, not only from an ecological point of view, but also from a social and economic perspective.

Our work focuses on the responsible handling of resources during development, production and distribution. Products in concentrated form reduce the consumption of water, packaging and energy, and minimise transport costs. Workflows in procurement, production and logistics are optimised continuously.

We are participating in ÖKOPROFIT Hannover.

- sustainable management
- environmental management and energy management
- saving of resources and energy, reduction of CO₂ and waste reduction

RESPONSIBLE CARE[®]
OUR COMMITMENT TO SUSTAINABILITY

We are a member of the Chemical Industry Association e.V. and commit ourselves to act in the spirit of the worldwide Responsible

Care initiative, constantly improving the protection of our health and the environment and the safety of our employees and our fellow citizens.

Product categories

Products for every field:	Page
 Kitchen	8-14
 Crockery	15-18
 Disinfection	19-23
 Glassware/Counters	25-29
 Sanitary Areas	30-35
 Freshness	36-38

Key

You will find a classification of the products according to their pH value acidic / neutral / alkaline next to each individual product. Alkaline cleaners dissolve fats and proteins. Acidic cleaners dissolve lime.

You can recognise the products that are particularly suitable for your HACCP concept by this symbol.

You can recognise our disinfecting products by the * next to the product name.

German Society for Hygiene and Microbiology / Association for Applied Hygiene

Austrian Society for Hygiene, Microbiology and Preventive Medicine

Industrial Association for Hygiene and Surface Protection

***Use biocide products with care. Always read the label and product information sheet before use.**

KITCHEN

The heart of every catering trade.

Basic hygiene in the kitchen - the most important products

Grease solvent

For all grease deposits on cooker hoods, floors, walls and work surfaces.

Rapid Disinfection*

For disinfecting surfaces and equipment such as food slicers, cutting boards, knives etc.

Baking oven and Grill Cleaner

Burnt Crust Remover

For cold cleaning of equipment such as ovens and grills or enamel baking trays. Powerful and rapid action.

Cream Soap or Decontasept*

Hand Disinfection*

Good hand hygiene through cleaning and disinfection.

*Use biocide products with care.

Always read the label and product information sheet before use.

DID YOU KNOW?

According to a 2017 study by the Employer's Liability Insurance Association, disposable gloves only provide a hygienic advantage as compared to regularly washed and disinfected hands if the gloves are replaced every 5 minutes.

Kitchen Clean*

- cleaning and disinfecting solution
- particularly suitable for slush ice machines, fruit juice dispenser and microwaves
- gentle to materials
- approved for acrylic surfaces
- disinfects according to EN 14476, limited virucidal

container:
1l spray bottle
(SU 10)
EAN-No.
4000602 152011
Art. No. 1693000

Grease Solvent

- highly concentrated 1:100
- highly-effective oil and grease remover for all waterproof alkali-resistant surfaces
- effortlessly removes stubborn grease from extractor hoods, tiles, work surfaces and stainless steel surfaces

container:
1l spray bottle
(SU 10)
EAN-No.
4000602 006246
Art. No. 1624000
5l canister (SU 1)
EAN-No.
4000602 152585
Art. No. 1625000
10l canister (SU 1)
EAN-No.
4000602 006260
Art. No. 1626000

recommended by German
federal Association of food
safety inspector

Grill Clean

- for cold application, usable up to 40 °C in and on grills, ovens and enamel baking trays
- powerful and rapid results
- adheres longer to surfaces
- 1 l bottle: with integrated special brush for targeted use

container:
1l bottle (SU 10)
EAN-No.
4000602 153360
Art. No. 1613000
5l canister (SU 1)
EAN-No.
4000602 153353
Art. No. 1615000

Baking Oven and Grill Cleaner

- application solution for cold cleaning of baking ovens, grills, sausage roasters, tilting pans, combi steamer
- 5l Container for self-cleaning programmes of professional convector ovens
- removes burnt-on, grease and roasting residue thoroughly and highly effectively

container:
1l spray bottle
(SU 10)
EAN-No.
4000602 007526
Art. No. 1752000

5l canister (SU 1)
EAN-No.
4000602 007618
Art. No. 1761000

Burnt Crust Remover

container:
1l bottle (SU 10)
EAN-No.
4000602 006079
Art. No. 1608000

5l canister (SU 1)
EAN-No.
4000602 006116
Art. No. 1611000

- manual cold-cleaning of combined ovens, grills, roasting ovens, smoking chambers and convector ovens
- powerful against burnt-on crust
- highly alkaline

s n a

Deep Fryer Cleaning Tablet

600g pack/12 pc
(SU 8)
EAN-No.
4000602 006635
Art. No. 1663000

- intensive cleaner in tablet form for powerful cleaning of professional deep-fat fryers
- removes burnt-on grease and oil
- stainless steel fryer accessories can be cleaned simultaneously
- **10 tabs single packed easy-to-dose, save application**

s n a

Deep Fryer Cleaner

container:
1kg bottle (SU 10)
EAN-No.
4000602 006628
Art. No. 1662000

5kg bucket (SU 1)
EAN-No.
4000602 006604
Art. No. 1660000

- intensive cleaner in powder form for powerful cleaning of **professional deep-fat fryers**
- removes burnt-on grease and oil
- stainless steel fryer accessories can be cleaned simultaneously
- easy to use, saves working time

s n a

Cream and Ice Cream Machine Cleaner SE3000*

- cleans and disinfects all common professional cream and ice cream machines
- **effective against bacteria (salmonellae) and yeasts**
- **DGHM/VAH listed**

container:
11 bottle (SU 10)
EAN-No.
4000602 006857
Art. No. 1685000

s n a

Milk Frother Cleaner*

- simple dosing
- **removes milkstone**, light grease deposits and other impurities
- **disinfects according to EN 1276** against salmonellae and bacteria
- combats unpleasant odours
- can be used in all common types of machines

container:
11 bottle (SU 10)
EAN-No.
4000602 006871
Art. No. 1687000

s n a

Coffee Machine Cleaning Tabs

- **removes coffee oil and greases**
- for cleaning professional and semi-professional coffee, espresso and hot drink machines with cleaning programme
- no impaired taste
- guarantees full aromatic flavour
- easy to dose, 1.6 g tablet

container:
pack of 30 (SU 10)
EAN-No.
4000602 006697
Art. No. 1669000

150 tab canister
(SU 8)
EAN-No.
4000602 006666
Art. No. 1666000

s n a

Coffee Machine Cleaner

- for cleaning professional and semiprofessional coffee, espresso, barista machines, hot drink machines and insulated containers
- for cleaning all coffee-bearing parts of the machine
- **removes coffee oil and greases**
- guarantees full aromatic flavour

container:
1kg bottle (SU 10)
EAN-No.
4000602 006673
Art. No. 1667000

s n a

* Use biocide products with care. Always read the label and product information sheet before use.

Rapid Decalcifier

container:
2l bottle (SU 5)
EAN-No.
4000602 006413
Art. No. 1644000

5l canister (SU 1)
EAN-No.
4000602 006420
Art. No. 1642000

- concentrate for descaling heavy-duty appliances and machines
- powerfully removes limescale with corrosion protection
- disinfects in accordance with EN 1276
- extends service life of the machine
- also dissolves rust
- based on phosphoric acid

s n a

Universal Descaling Powder

container:
1kg bottle (SU 10)
EAN-No.
4000602 007236
Art. No. 1723000

- for bain-marie, dishwashers, coffee
- machines, pas ta cookers, kettles
- pure sulphamic acid up to 6-times stronger than citric acid
- suitable for cold and warm use
- for bain-marie, dishwashers, coffee machines, pasta cookers, kettles
- short contact time
- good material compatibility
- extends service life of the machine

s n a

Decalcifier

container:
1l bottle (SU 12)
EAN-No.
4000602 006529
Art. No. 1652000

5l canister (SU 1)
EAN-No.
4000602 152875
Art. No. 1655000

- descaler for **small appliances** such as water heaters, coffee machines and samovars
- with **colour indicator** to check descaling results
- with food grade citric acid
- special corrosion protection for care of liquid-bearing parts
- extends service life of the machine

s n a

Decalcifying and Cleaning Tabs

container:
pack of 8 (SU 10)
EAN-No.
4000602 006390
Art. No. 1639000

- **3 in 1** – descaling, cleaning, care
- suitable for commercial and household dishwashers, washingmachines, coffee machines
- extends service life of the machine
- simple dosing

s n a

Limescale Remover

- excellent limescale-removing power
- for use in bathroom/WC, kitchen, counters
- quick, effortless outer descaling of appliances, equipment and surfaces
- value preserving effect

container:
1l spray bottle
(SU 10)
EAN-No.
4000602 007212
Art. No. 1721000

s n a

Stainless Steel Protector

- for the care of brushed and matted stainless steel, chrome and aluminium
- especially for elevators, cupboard and wall surfaces and extractor hoods
- leaves a light protective film on the surface

container:
1l spray bottle
(SU 10)
EAN-No.
4000602 006543
Art. No. 1654000

Cleaner for CERAN® Cooktops

- for cleaning and care of CERAN® cooktops, induction ovens
- removes grease splashes and iridescent discolouration, removes limescale and water streaks
- with high-quality silicone oil
- tested and recommended by Schot®

container:
500ml bottle (SU 8)
EAN-No.
4000602 006536
Art. No. 1661000

s n a

Special Cleaner Anti-Slip Floors

- suitable for special tiles in kitchen and production areas
- removes dirt from fine s toneware tiles
- suitable for manual and automatic heavy-duty and maintenance cleaning

container:
2l bottle (SU 6)
EAN-No.
4000602 006840
Art. No. 1684000

s n a

Silver Bath Dip-and-Shine

container:
1l spray bottle
(SU 10)
EAN-No.
4000602 153247
Art. No. 1643000

- dip cleaner for silver cutlery, silver-ware
- also suitable for silver plating
- **immerse briefly, rinse immediately**
- brilliant shine without polishing
- with anti-tarnish protection

s n a

Odour Neutraliser

container:
750g bottle (SU 6)
EAN-No.
4000602 007588
Art. No. 1787000

- natural mineral to prevent unpleasant odours
- for organic waste and nappy bins
- hygroscopic and deodorising
- effect with fresh citrus scent
- binds moisture
- compostable and insecticide-free

A GREAT TEAM

You should use different disinfectant cleaners for your cream whipping machine or ice cream machine (alkaline cleaner required) and your milk frother (acidic cleaner required). Disinfection is extremely important because cream and milk are easily perishable foods. We recommend additional cleaning with the respective other cleaning agent by using them alternatively at regular intervals.

CROCKERY

Move effortlessly towards cleanliness.

Basic hygiene for dish and glasswashing machines - the main products

**Galakor F9
Galakor S rinse aid**

The optimal combination designed for high water hardness.

**Galakor F8
Galakor N**

Optimum results even with stubborn stains.

Galakor F3

Glass cleaner – keeps beer foam stable and is gentle on the pattern.

Rapid Decalcifier

Concentrate for descaling large appliances and machines.

DID YOU KNOW?

When removing food residues, the pre-wash temperature should not exceed 40° C, otherwise starch and protein residues will burn into the crockery. This is indicated by rough spots on the crockery. These pose a hygiene risk as they provide a breeding ground for germs and should be removed using products such as our basic cleaner for porcelain.

Galakor F8 Cleaner for Commercial Dishwashers

container:
12kg (9,1L)
canister (SU 1)
EAN-No.
4000602 008905
Art. No. 1890000

- for all **commercial dishwashers** with 1 - 5 minute programmes and dosing technology
- strong alkaline and chlorinecontaining dishwasher cleaning agent with good grease-dissolving and bleaching action
- removes protein and crust residue
- counteracts build-up of starch
- low-foam

s n a

Galakor F9 Cleaner for Commercial Dishwashers

container:
12kg (10,2 L)
canister (SU 1)
EAN-No.
4000602 007755
Art. No. 1775000

- for all **commercial dishwashers** with 1 - 5 minute programmes and dosing technology
- **chlorine and phosphate-free**
- **designed for high water hardness**
- strong alkaline cleaning agent against grease and protein, counteracts build-up of starch
- low-foam

s n a

Galakor N clear & rinse aid

container:
10l canister (SU 1)
EAN-No.
4000602 008936
Art. No. 1893000

- for all **commercial dishes and glass washing machines** with dosing technology
- economical use, only 0.1 - 0.5 g per 1 l water dosage
- **neutral clear rinser**
- excellent wetting coverage of dishwasher items
- low-foam

s n a

Galakor S clear & rinse aid

container:
10l canister (SU 1)
EAN-No.
4000602 004945
Art. No. 1494000

- for all **commercial dishwashers and glaswashers** with dosing technology
- economical in consumption, only 0.1 to 0.5g per 1l of water
- **acidic clear & rinse aid**
- prevents build-up of lime in the final rinse zone
- manual drying is not necessary

s n a

Galakor F3 Cleaner for Commercial Glass Washing Machines

- for all **commercial glass washing machines** with 1 - 5 minute programmes and dosing technology
- **chlorine-free and odourless**
- keeps beer foam stable and **protects the pattern**
- low-foam

container:
12kg (9,3 L)
canister (SU 1)
EAN-No.
4000602 008929
Art. No. 1892000

s n a

Galakor P7 Powdered Cleaning Agent for Commercial Dishwashers

- **up to 1.100 rinse cycles, with-measuring cup**
- for all commercial dishwashers with 1 - 5 minute programmes
- with active chlorine
- removes stubborn stains as well as protein and grease
- **protects the pattern**

container:
10kg bucket (VE 1)
EAN-No.
4000602 007793
Art. No. 1779000

s n a

Galakor T10 Dishwasher Tablets

- suitable for all household dishwashers
- detergent, rinsing agent, salt function, stainless steel brightener, long-term glass protection, odour neutraliser, extra dry effect
- **effective even at low temperatures**
- cleansing enhancers, express power formula against heavy soiling

200 tabs
(SU 1)
EAN-No.
4000602 007823
Art. No. 1782000

s n a

Galakor Porcelain Basic Cleaner

- basic cleaner for manual dishwashing
- Reliably removes rough residues (hygiene risk) from porcelain
- effective against tea, coffee and cocoa deposits
- refreshes unattractive porcelain and stoneware

container:
1l bottle (VE 12)
EAN-No.
4000602 006642
Art. No. 1664000

s n a

A GREAT TEAM

Galakor F9, our strongly alkaline cleaner, was developed especially for high water hardness and removes grease and proteins effortlessly.

We recommend combining it with an acidic rinse aid such as Galakor S for water hardness of 7°dH or more.

DISINFECTION

Safety first.

The basis for the right disinfection - the most important products

Rapid Disinfection*

Disinfects between work processes and is effective in just 15 seconds, without having to wipe dry.

Disinfectant Cleaning Agent Super F6000*

Disinfection for large surfaces and floors - effective against bacteria, fungi and viruses.

Hand Disinfection*

Important for personal hygiene - available as gel or liquid.

Decontasept*

Interrupts the chain of infection through decontamination by washing.

* Use biocide products with care.
Always read the label and product information sheet before use.

DID YOU KNOW?

Up to 6,000 germs romp around on one square centimetre of our hands, and up to 200,000 on one square centimetre of our foreheads - which is why personal hygiene and, in particular, regular hand washing and disinfection are so important.

Rapid Disinfection*

container:
1l spray bottle
(SU 10)
EAN-No.
4000602 004518
Art. No. 1451000

- disinfects work surfaces, machines and equipment
- can be used between work processes
- contact time from 30 seconds (e.g. corona)
- certified according to DGHM/VAH and IHO
- effective against bacteria (incl. MRSA, salmonellae and listeria, Tbc), yeasts and enveloped viruses (corona, BVDV and vaccinia virus)
- dries without leaving any residue,
- no wiping off or rinsing

recommended by German
federal Association of food
safety inspector

Disinfection Wipes for Surface Disinfection*

container:
bucket of 70 wipes
(SU 1)
EAN-No.
4000602 004549
Art. No. 1454000

Refill 70 wipes
(SU 2)
EAN-No.
4000602 004556
Art. No. 1455000

- ready for use - safe to use, no fogging
- 100% biodegradable wipes with
- optimal release of active ingredients
- bactericidal, levorucidal, limited
- virucidal action PLUS (MRSA,
- Salmonella and Listeria, fungi including yeasts and moulds, viruses (Adenovirus, Norovirus and Rotavirus, BVDV and Vaccinia Virus, Corona, Influenza Virus)
- free from aldehydes and QAC (quaternary ammonium compounds)
- for all alcohol-resistant surfaces

Disinfectant Cleaning Agent Super F6000*

container:
1l bottle (SU 8)
EAN-No.
4000602 007465
Art. No. 1745000

- suitable for floors and cleanable surfaces
- easy and exact dosing
- aldehyde- and fragrance-free
- against bacteria, fungi, yeasts and enveloped viruses incl. corona
- bactericidal, levorucidal, fungicidal, full virucidal

s n a

Disinfectant Cleaning Agent Super F6000*

container:
5l canister (SU 1)
EAN-No.
4000602 007427
Art. No. 1742000

- suitable for floors and cleanable surfaces
- easy and exact dosing
- aldehyde- and fragrance-free
- against bacteria, fungi, yeasts and enveloped viruses incl. corona

s n a

Hand Disinfection Gel*

- bactericidal, levurocidal, limited virucidal activity (incl. coronaviruses)
- contains skin-friendly, moisturising and caring substances
- DGHM/VAH and IHO listed, corresponds to EN 1500
- fragrance-free, suitable for food areas
- 1l with practical dosing pump, also suitable for euro dispensers

container:
1l pump bottle
(SU 10)
EAN-No.
4000602 004716
Art. No. 1471000

5l canister (SU 1)
EAN-No.
4000602 004419
Art. No. 1441000

Hand Disinfection Gel*

- bactericidal, levurocidal, limited virucidal activity (incl. coronaviruses)
- contains skin-friendly, moisturising and caring substances
- DGHM/VAH and IHO listed, corresponds to EN 1500
- fragrance-free, suitable for food areas
- 1l suitable for euro dispensers

container:
1l bottle (SU 10)
EAN-No.
4000602 004877
Art. No. 1487000

Hand Disinfection Gel*

- bactericidal, levurocidal, limited virucidal activity (incl. coronaviruses)
- contains skin-friendly, moisturising and caring substances
- DGHM/VAH and IHO listed, corresponds to EN 1500
- fragrance-free, suitable for food areas
- ideal for travelling e.g. in the car

container:
100ml bottle
(SU 2x24 counter-top display)
EAN-No.
4000602 004587
Art. No. 1458000

Hand Disinfection Gel Orange*

- bactericidal, levurocidal, limited virucidal activity (incl. coronaviruses)
- contains skin-friendly, moisturising and caring substances
- corresponds to EN 1500
- with practical dosing pump
- with fragrance

container:
500ml pump bottle
(SU 10)
EAN-No.
4000602 004686
Art. No. 1468000

Hand Disinfection*

container:
1l bottle (SU 10)
EAN-No.
4000602 004624
Art. No. 1462000

5l canister (SU 1)
EAN-No.
4000602 004631
Art. No. 1463000

- adequate application in food industry
- levurocidal, bactericidal (incl. TbB), limited virucidal (incl. corona-viruses)
- certified according to DGHM/VAH
- IHO listed
- fragrance-free
- 1l bottle suitable for euro dispensers

Decontasept*

container:
1l bottle (SU 10)
EAN-No.
4000602 004617
Art. No. 1461000

- washing decontamination for skin
- and hands as part of personal hygiene
- ideal for high levels of protein, blood and grease
- certified according to DGHM/VAH and ÖGHMP guidelines
- fragrance-free, suitable for people with allergies
- suitable for euro dispensers

s n a

Wall dispenser¹ aluminum Casing

container:
1 piece (SU 4)
EAN-No.
4000602 004532
Art. No. 1453000

- suitable for Dr. Becher Hand Disinfection, Hand Decontamination and soap - 1000ml euro dispenser
- saving, easy and accurate dosage
- adjustable dosage amount 0,8ml-1,5ml
- possible use by forearm elbow or by hand
- short operating lever
- Anodised aluminium, matt silver, replaceable 25 stainless steel pump with straight suction tube

¹ disinfectant not included with dispenser

DISINFECT LIKE PROFESSIONALS

Properly disinfect hands in accordance with EN 1500

Properly disinfect hands in accordance with EN 1500!

1 Rub your palms against each other

2 Wash with right palm to the left hand and move with the left palm to the right hand back, clasp fingers together

3 Rub interlocked and palms against each other

Training on good hygiene practices according to HACCP principles with certificate of participation

According to EC Regulation 852/2004, food business operators are obliged to provide training for their employees if these employees handle food or utensils.

The Infection Protection Act requires follow-up instructions every 2 years. In order to train your employees, you should ensure that you keep yourself updated on a regular basis.

Dr. Becher has been collaborating with trade partners to provide training courses on good hygiene practices for operators and managers in the food processing industry for many years.

Becharein reduces dispensing losses by up to 13% when compared to glasses that are washed only with plain water or with conventional washing-up liquid. More in the glass, more in the till.

Becharein Beverage Glass Cleaner

container:
1l bottle (SU 12)
EAN-No.
4000602 001180
Art. No. 1118000

- reduces dispensing loss (approx. 13 %)
- for **manual** glass cleaning
- keeps beer foam stable
- sufficient for up to **5000l** rinsing water
- proven performance against residue such as grease, hops, malt in warm and cold water
- recommended by breweries

s n a

Becharein Beverage Glass Cleaner Pro

container:
1l bottle (SU 10)
EAN-No.
4000602 001265
Art. No. 1126000

- reduces dispensing loss (approx. 13%)
- for **manual** glass cleaning
- keeps beer foam stable
- sufficient for up to **5000l** rinsing water
- proven performance against residue such as grease, hops, malt in warm and cold water
- in a bottle with **handy dosing system**

s n a

Becharein Beverage Glass Cleaning Tablets

container:
750g pack (SU 10)
EAN-No.
4000602 001357
Art. No. 1135000

- **automatic dosing**, no need to remove plastic wrapper
- can be used in cold and warm water
- 75 individual tablet portions
- especially recommended for pressure rinsing units
- tested and certified for:
 - stability of beer foam
 - reduction of dispensing loss
 - dissolution of grease and lipstick

s n a

Glass Cleaner premium

container:
1l bottle (SU 10)
EAN-No.
4000602 001234
Art. No. 1127000

- sufficient for **2500l** rinsing water
- **keeps beer foam stable**
- for manual cleaning of glassware
- in warm and cold water
- removes lipstick and grease
- **fragrance-free and tasteless**

PLEASING THE EYE

SANITARY FACILITIES

The business card for your catering trade.

**Basic hygiene in the sanitary area -
the most important products**

Bathroom Cleaner*

For disinfecting (in accordance with EN 1276) and material-friendly routine cleaning.

Cream Soap

Subtly perfumed, skin-friendly hand cleaning for you and your guests.

Urine Scale Remover WC Special Cleaner

Powerful routine cleaning of WC and urinals to prevent urine scale and limestone. Eliminates unpleasant odours.

Sanitary Cleaner

Sanitary cleaner for daily routine cleaning, removes rust, soap residues and urine scale.

***Use biocide products with care.
Always read the label and product
information sheet before use.**

DID YOU KNOW?

Even if limescale is the main problem in sanitary areas and acidic cleaners can combat this most effectively, an alkaline cleaner should also be used in certain cases. Soap residues, for example, are part of organic soiling and can be easily removed with an alkaline cleaner.

Bathroom Cleaner*

- ready-to-use solution
- **repels water**
- **disinfects in accordance with EN 1276**
- **gentle on materials**
- can be used on fittings

Ihr individueller Weg zur Hygiene

**We create your
tailor-made hygiene
concept with you.**

**Recommended by the "Bundesverband
der Lebensmittelkontrolleure e.V."
(German Federal Association of
Food Inspectors)**

We will work together to prepare a customised hygiene concept for your business.

The following services are included:

- 1. Identification of the focus areas for training**
- 2. Assessment of hazards according to CP or CCP**
- 3. Preparation of customised check lists and work instructions for the company, such as:**
- 4. Preparation of customised cleaning and disinfection plans for each of your company areas: daily, weekly, monthly**
- 5. Operating instructions and safety data sheets for the products**
- 6. Training concept for the staff based on DIN 10514 and the German Infection Protection Act (IfSG)**
- 7. Instruction and handover of the hygiene concept to the responsible party, including writeable files to enable modification and duplication for your own business establishment**

BOOKABLE AGAINST FEE

Configuration of the dishwasher/glass washer

- » Determination of water hardness and conductivity
- » Review of the washing and rinsing temperatures
- » Initial washing with the dish and glass washer, as well as review of the rinsing results
- » Staff instruction
- » Documentation of services according to DIN 10510

**We provide staff training
at your premises that is tailored
to the needs of your business.**

The following services are included:

1. Identification of the focus areas for training
2. Implementation of training on food hygiene according to the Infection Protection Act for up to 25 persons
3. Documentation of the follow-up instruction according to the HACCP standard

THE CONTENTS

Besides an interesting seminar programme addressing issues of relevance to the hotel business, hospitality, public catering, food processing and hygiene, there will also be a broad range of talks and workshops.

The Puravia Training Academy will also address current trends in this context, for example the including vegan cuisine. Theory and practice are combined ideally to ensure that you and your business obtain the maximum benefits.

There is also sufficient space for technical discussions among colleagues during seasonal theme days.
